25 October 1967

MEMORANDUM FOR: [REDACTED]

25X1A9a

SUBJECT : History of Language Training

1. I have found in the vital records boxes of material from the Language School covering the years 1951 - 1959. The vital records also have copies of weekly reports dating all the way back to the early days. Through the vital records it is also possible to recover information on personnel, TO, and the like.

2. I plan to screen most of these materials myself in order to see what is actually available that can be used. In the meantime, if you will let me know what files you would like to see and on what subjects, I will see that you get them.

3. Some history has already been written covering the periods 1950 - 1953. I am enclosing some excerpts which may be of use to you.

4. I would suggest that you outline what you propose to do and that we then discuss it.
